Strong finish to FY 2022 – Continuing cost increases likely to initially dampen margin expansion as expected

The publication of the 2022 annual report of the Berentzen group on 23 March has confirmed the preliminary results published earlier. It has been the best year in the company's history in terms of sales.

Top line mainly benefits from catch-up effects: In the last financial year, the beverages group recorded sales of EUR 174.2m, corresponding to an increase of 19.2% yoy. Growth was driven by a positive development across all major segments (spirits: 12.2% yoy; non-alcoholic beverages: 26.3% yoy; fresh juice systems: 22.5% yoy). Lemonade brand Mio Mio, which is focused on sustainability, has again seen the highest growth (some 24% yoy).

Consolidated earnings driven by cost increases and non-cash effective special effects: As we had expected, the strong cost increases and extraordinary one-offs had prevented that earnings improve in line with sales. In accordance with an increase in producer prices, the gross profit margin declined by 3.1pp in the second half of the year in comparison to the half-year figure and, at 45.5%, was below the prior-year value (46.9%) on a full-year basis. Additionally, the significantly higher energy prices led to an increase in other operating expenses by 150bp. On the one hand, extraordinary charges are due to the initial application of IAS 29 for the activities in Turkey (classified as hyperinflationary economy since 2022), which resulted in a negative earnings effect of EUR 1.2m. On the other hand, the recent rise in interest rates and the disproportionately strong burden caused by input prices led to an impairment in the Non-alcoholic Beverages segment of EUR 1.3m. Based on these non-cash effective write-downs and a slightly higher tax and interest burden, net income came in at EUR 2.1m, which is below our expectations (EUR 3.9m) and the previous year (EUR 3.7m).

Guidance anticipates further sales increases – Earnings development still dampened for the time being: For the current financial year, the company expects another increase in sales in the range of EUR 185–195m, which is in line with our expectation (MONE: EUR 188.7m). In addition to the effects from the price increases anticipated in 2023, this development is also attributable to another volume increase in the focus areas. Especially the Mio Mio brand is seen to generate high growth rates of >20% with a stronger expansion in the region of South Germany. To this end, the sales team will be expanded from currently 28 to roughly 35 employees in the medium term to gradually increase the present coverage of only 25% of the addressable distribution points over the next few years.

On the bottom line, the management board expects group EBITDA between EUR 15.6–17.6m and EBIT in a range between EUR 7.0–9.0m. The communicated guidance is in line with our expectations (EBITDA: EUR 17.0m and EBIT: EUR 7.8m). The rationale behind the expected moderate earnings outlook are inflationary effects which are still being felt particularly in the first half of the year. Although the procurement prices for raw alcohol have declined recently (March 23: EUR 1.98/gallon vs. Sept. 22: c. EUR 2.24/gallon), industry experts expect another significant increase in producer prices in the glass production – depending on how the producers have hedged their energy prices. Based on the oligopolistic supplier structure in this market, beverage producers cannot escape the rising procurement prices in this market. Consequently, we expect the gross profit margin to decline by another 2.9pp in 2023, even though the anticipated price increases are likely to gradually dampen this negative effect during the year. For this reason, the news flow should improve again in H2 with regard to the margin development.

Conclusion: Berentzen has successfully concluded the year 2022 amidst a challenging market environment. It is a positive that each and every field of growth has seen a strong development compared to the years of the pandemic. As expected, 2022 and the first half in particular will be challenging in terms of earnings. We therefore see this transition phase as an opportunity for an investment, as the mid-term perspective continues to be extremely attractive. Against this backdrop, a discount to the peer group on the basis of the transition year 2023 is not justified in our view (EV/EBITDA 2023e: Berentzen: 3.5x vs. peers: 8.7x). We therefore reiterate our buy rating with an unchanged price target of EUR 12.00.

COMPANY BACKGROUND

Founded in 1758, Berentzen looks back on a history of over 250 years and is seen as one of the best-known spirits brands in Germany. Alongside production and sale of spirits, the company has expanded its business activities to non-alcoholic beverages and fresh juice systems through numerous acquisitions over the years. Today, Berentzen can be regarded as an integrated beverages group, which has an attractive brand profile with a very good price-performance ratio.

To maintain its ground in the highly competitive beverages market in the long term, the company has established a promising niche strategy over the last years which is based on the Berentzen, Puschkin, Mio Mio and Citrocasa core brands. In addition to this business, the company has a market-leading position in private label spirits which makes the Berentzen group an appreciated partner for customers such as EDEKA and REWE.

The four segments below are the basis of reporting pursuant to IFRS 8.

Spirits segment (revenue share: 59.7%)

This segment with its traditional Berentzen brand is the origin of the company. In addition to the Berentzen and Puschkin core brands, the company offers other regional and national spirits brands such as Strothmann, Bommerlunder, Doornkaat or Dirty Harry. In the last years, the company has started a broad innovation campaign for its focus brands and launched various product variations which address different target groups. For instance, the seasonal Berentzen *Creamers* product line addresses the target group of younger consumers because of the available flavours and the product presentation. The high-quality product design and lower sweetness of *Landlikör* addresses persons aged 35+. The **domestic brand spirits account for roughly one third of revenues in this segment**. Subsidiary Pabst & Richarz Vertriebs GmbH is responsible for the business activities of the private label business and bundles the commissioned products of all kinds of spirits for customers such as REWE, EDEKA, or the Schwarz group. Together with the export of the brand spirits, the revenue share of these activities accounts for the remaining two thirds of this segment.

Non-alcoholic Beverages (revenue share: 25.6%)

The non-alcoholic beverages segment is exclusively managed by subsidiary Vivaris Getränke GmbH & Co. KG. Mio Mio is the declared focus brand, which is characterised by a sustainable focus (fully climate-neutral) and additive ingredients such as caffeine, guarana, or mate. At an average growth rate of over 30% p.a., **Mio Mio** has been the growth driver of this segment in the past few years and meanwhile accounts for a **segment share of more than one third**. Regional mineral waters of the brands Emsland, Märkisch Kristall and Sankt

Ansgari (revenue shares: almost 50%) make up the largest share in the Non-alcoholic Beverages segment in terms of volume. The remaining revenues in this segment are generated with other lemonades and soft drinks, energy drinks and with the concession business for Sinalco. Contract filling for PepsiCo was discontinued at the end of Q1/21.

Fresh Juice Systems (revenue share: 10.8%)

The acquisition of TMP Technic-Marketing-Products GmbH in 2014, which changed its name to Citrocasa GmbH in July 2019, marked the entry into the market for fresh juice systems. The company's range of services include the distribution of juicers but also the supply of oranges and the corresponding bottling systems. This one-stop solution of Citrocasa addresses the retail in Germany and Austria, whilst juicers are sold by distributors on a global scale. The distribution of juicers accounted for roughly 32% of revenues in FY 2021, trade in oranges for roughly 45% and the sale of bottling systems for roughly 23%.

Others (revenue share: 3.9%)

This segment includes the activities of the Turkish subsidiary (segment share c. 75%) and revenues of the *Berentzen Hof* event location at the company's headquarters in Haselünne. In the years prior to Covid-19, *Berentzen Hof* had been a popular destination with more than 35,000 visitors per year.

Sales breakdown by regions and channels

Germany is the group’s regional sales focus with revenues of EUR 129.3m in 2022 and a share of 74.2%. The company generated a top line contribution of EUR 33.2m (19.0%) in other countries of the European Union. Revenue streams from the international business also comprise the rest of Europe with EUR 8.8m (5.1%) and revenues outside Europe of EUR 3.0m (1.7%).

In terms of sales channels, Berentzen follows the general market distribution and, at a sales share of c. 90% (MONE), addresses almost exclusively the food retail industry. Accordingly, revenues generated with the food and drink establishments account for some 10%.

CSR strategy

Corporate Social Responsibility is a key priority for the Berentzen group and can be regarded as exemplary for a company of this size regarding the scope of reporting. That the efforts in this area are paying off has been demonstrated by the Gold Medal which the company has been awarded by EcoVadis most recently. Only 5% of the over 100,000 rated company receive this medal. The strategic key aspects and the corresponding measures of the CSR strategy can be seen in the chart below.

Management

The current Management Board consists of CEO Oliver Schwegmann and CFO Ralf Brühöfner.

Oliver Schwegmann (CEO) assumed this position in June 2017 and is responsible for marketing, distribution, production & logistics, procurement as well as research & development. The graduate sports economist had held several management positions at prestigious companies prior to this. Most recently, Mr. Schwegmann was Country Managing Director at L'Oréal Suisse SA in Switzerland. Hero AG, Mars GmbH and August Stock KG were other renowned companies, where he held management positions.

Ralf Brühöfner (CFO), a business graduate, started his career at PwC, where he gained experience in investment controlling over several years. In 2001, Mr. Brühöfner joined the Berentzen group as commercial manager and was appointed to the Management Board as CFO in 2007. He has been responsible for finances, controlling, human resources, IT, legal, corporate communications, investor relations and corporate social responsibility since then.

Shareholder Structure

Berentzen-Gruppe AG went public in June 1994 at the Frankfurt stock exchange. 9.6m shares are currently outstanding. The free float is relatively high at a rate of 74%. MainFirst is the largest shareholder with a stake of 8.5%. Marchmain Invest N.V. recently acquired a stake of 5.5%. This is followed by Lazard Frères Gestion (France) and Aevum Fondation de Prévoyance (Switzerland) which are both holding a stake of some 5%. Berentzen-Gruppe AG holds 2.1% of its own shares.

Declaration according to Section 85 of the German Securities Trading Act (WpHG) and Art. 20 Regulation (EU) No. 596/2014 in conjunction with Commission Delegated Regulation (Delegierte Verordnung) 2016/958 (as of 21 July 2022): Montega has made an agreement with this company about the preparation of a financial analysis. The research report has been made available to the company prior to its publication / dissemination. Thereafter, only factual changes have been made to the report. A company affiliated with Montega may hold an interest in the issuer's share capital or other financial instruments.

Prices of financial instruments mentioned in this analysis are closing prices of the publishing date (respectively the previous day) if not explicitly mentioned otherwise. Any updating of this publication will be made in the case of events that Montega considers to be possibly relevant to the stocks' price performance. The end of regular comments on events in context with the issuer (coverage) will be announced beforehand.

Sources of information: The main sources of information for the preparation of this financial analysis are publications of the issuer as well as publicly available information of national and international media, which Montega regards as reliable. There have also been discussions with members of the management team or the investor relations division of the company concerned when preparing this analysis.

Reference pursuant to MiFID II (as of 21 July 2022): This publication was prepared on the basis of a contract between Montega AG and the issuer and will be paid by the issuer. This document has been widely published and Montega AG makes it simultaneously available for all interested parties. Its receipt therefore is considered a permissible minor non-monetary benefit in the sense of section 64 Paragraph 7 Sentence 2 No. 1 and 2 of the German Securities Trading Act (WpHG).

Fundamental basics and principles of the evaluative judgements contained in this document: Assessments and valuations leading to ratings and judgements given by Montega AG are generally based on acknowledged and broadly approved methods of analysis i.e. a DCF model, a peer group comparison, or sum-of-the-parts model.
